A senior level UAE delegation will visit Germany on June 28 to explore ways the two countries can co-operate in the area of clean energy, as the Gulf nation pushes ahead with its target of achieving net zero emissions by 2050. The delegation, headed by Sharif Al Olama, undersecretary of the Ministry of Energy and Infrastructure, will include ministry officials and executives from Adnoc and Masdar to discuss energy opportunities, particularly in renewables and hydrogen, a ministry statement on Sunday said.

## ✓ SAVE ENERGY EVERYDAY

**Myth:** You can dehumidify a room by turning down the air-conditioning to 60 degrees!

**Fact:** The water from the cleaning evaporates into the air increasing the humidity in the room. If the room temperature is set above the dew point of the air in the room then the condensation will occur in the HVAC equipment and drain to the outdoors. Otherwise, it occurs on the walls, computers, desks...
